

smilow.|lighting

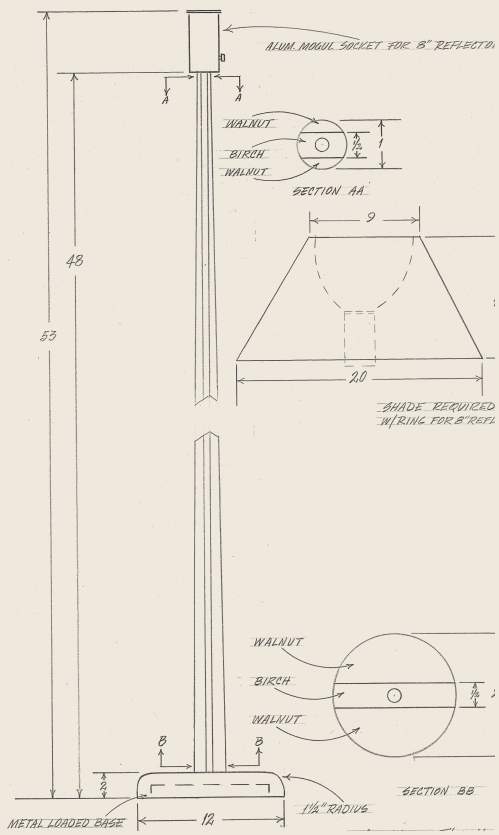

Mel Smilow (1922–2002) designed and retailed modern furniture and lighting through his six independently owned stores from 1949 to the late 1970's.

A champion of affordable, finely crafted, modern design—his work has been recognized and coveted by collectors and well appreciated by his loyal customers for over 50 years.

His lighting, designed in 1956, was inspired by classic sculpture. Smilow created lighting of simple elegance in warm natural solid walnut, with complimentary hand-made birch matchstick shades.

It is with great pleasure, that continuing on as a family owned business, we reintroduce this beautiful lighting line to compliment his furniture.

smilow|lighting

enduring style and quality. Made in America since 1949, Smilow lighting embraces clean lines, great proportions, fine details and functional quality designed to last a lifetime.

modern designs, mid-century heritage. Faithfully based on Mel Smilow's original drawings, our lighting represents the best of mid-century modern design, interpreted for today. It is classic and contemporary.

classic craftsmanship. We use solid American hardwoods, precision cut and shaped, then carefully fit together by skilled craftsmen. Each piece is made by hand and finished to perfection. Our lighting is available on a custom basis or in quantity, and can be shipped to any location.

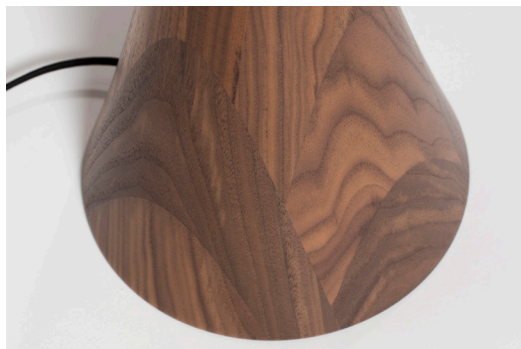

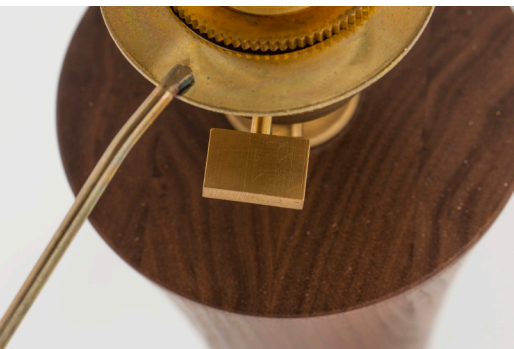

Smilow® Lighting is UL listed and appropriate for residential, hospitality, contract, institutional, and retail applications.
